

Want to volunteer at Girls Inc.?

Everyone who volunteers at Girls Inc. must participate in a volunteer orientation (approximately 50 minutes). You'll get a tour and learn about Girls Inc. and the (important!) role volunteers play in helping us to "inspire all girls to be strong, smart, and bold."

Depending upon your volunteer role at Girls Inc., your orientation may include additional training. For example, if you would like to assist with GirISTART, a literacy program for our kindergarten and first grade girls, your orientation and training session will last approximately 2 ½ hours.

For the safety of our girls, many Girls Inc. volunteer opportunities require a background check.

Volunteer opportunities range from a minimal time commitment with center activities such as assisting with daily meal service on a day or days that fit your schedule to lengthier commitments such as an hour once each week for the fall semester to assist with the delivery of a program.

We have opportunities for teams of volunteers to assist with projects in and around our facilities such as landscaping, painting, construction, bulletin boards, and library projects.
